Boarding pets must be current on vaccinations and tests according to our protocol. Any necessary services can be performed at the time of admission. Pets found to have intestinal parasites or fleas will be treated with appropriate medications and the cost will be added to your account. Administration of any medication while boarding is charged at \$3.00 per day. A \$2.50 fee per day will be added if your pet is given food other than what we routinely provide (except food that you bring).

We provide bedding for all boarding pets. Please ensure all belongings and food are clearly labeled. We do not accept responsibility for the return of any items left with your pet.

Should injury or circumstance warrant the need for emergency service, we will attempt to contact you at the emergency number above prior to treatment, but will exercise the option to proceed as needed if you cannot be reached. By signing below, you agree to accept appropriate charges.

I verify the care instructions below are correct and accept responsibility for all charges as described above:
